

## **A brief account of How Ehsaas scholarship helped me during Graduation period**

I, Ifrah Fatima, student of Ms-1, Roll No 23252071025, registration No 1925107013, had completed my Bachelors in Chemistry from this prestigious institute. I was awarded with Ehsaas Scholarship during that period which was a merit and need based scholarship.

Ehsaas scholarship covered fees and also we were awarded a handsome amount of money per year which we utilized for various purposes.

The scholarship had helped me a lot in fulfilling my quest for education, without the scholarship during hard period of covid-19 and economic crisis in recent years it was very difficult for me to continue my education. Covid-19 was the time during which we all suffered a lot. All public places and workplaces were completely shut. That time might be less hard for some but it was harsh for people whose income depends on daily basis pays. So my parents suffered a lot and later after covid-19 they suffered a lot with respect to economic instability and inflation. During all that time and even later our hope was this scholarship it relieved my parents that I can still continue to learn and complete my graduation.

I am also a hostelite, in comparison to day scholars hostelites have to pay hostel dues that is also a burden on our family and in a family where there is only one person earning it is quite difficult to fulfill needs of all children. This scholarship had lessened the burden of my parents to a large extent. With the money I was given per year I was able to pay my hostel dues that was also a big support for me and my parents.

With the help of scholarship, I not only completed my graduation but completed it with distinction; I am a gold medalist of my batch of 2019-2023 Chemistry Department.

I am truly thankful to Financial aid office of LCWU and especially Mam Hina Anwar Deputy Director Financial Aid Office, for supporting us during all those years and resolving our financial problems. A big thanks to all.
